

Changes to Delta Plan (April 2018) regarding G P1 (b)(2) Amendments

<p>Chapter 2, page 51 (PDF page 103)</p>	<p>Mitigation of Significant Adverse Impacts on the Environment</p> <p>Public Resources Code section 21081.6 requires a public agency to adopt a mitigation monitoring or reporting program (MMRP) to ensure compliance with the mitigation measures adopted by the agency at the time of project approval. The MMRP is a working implementation document to ensure that mitigation measures are implemented. The MMRP for the Delta Plan Program Environmental Impact Report (PEIR), <u>as amended</u>, ensures compliance with the Delta Plan <u>all</u> mitigation measures <u>adopted and incorporated into the Delta Plan</u>. The Delta Plan MMRP lists the all mitigation measures <u>adopted and</u> incorporated into the Delta Plan, when they need to be implemented, who is responsible for implementing them, and who reports on compliance. As specified in policy G P1 of the Delta Plan, any covered action that is not exempt must include either the all applicable mitigation measures <u>identified in adopted and incorporated into the Delta Plan's PEIR, if applicable and feasible</u>; substitute mitigation measures that the proposing agency finds to be equally or more effective than those identified in the Delta Plan PEIR <u>mitigation measures</u>; or an explanation of why such any Delta Plan <u>any Delta Plan</u> mitigation <u>measure</u> is not feasible. Monitoring and/or reporting on implementation of the adopted Delta Plan mitigation measures will be accomplished through the certification of consistency process as part of the certification forms. The MMRP can be found on the Council's DSC's website at http://deltacouncil.ca.gov/ and as appendix O.</p>
<p>Chapter 2, page 53 (PDF page 105)</p>	<p>G P1 (b)(2) – “Covered actions not exempt from CEQA must include <u>all</u> applicable feasible mitigation measures <u>adopted and incorporated into the Delta Plan as amended April 26, 2018 identified in the Delta Plan's Program</u> PEIR (unless the measure(s) are within the exclusive jurisdiction of an agency other than the agency that files the certification of consistency), or substitute mitigation measures that the agency that files the certification of consistency finds are equally or more effective”</p>
